DANIEL ALFIS

SYSTEM ADMINISTRATOR

PROFILE

My name is Daniel Alfis, usually called danil. The first child of three siblings. I graduated from D3 Computer Engineering from Padang State Polytechnic.

I have the ability in computer networks such as Troubleshoot Computer and Network problems, can install and configure Network and server networks, and can perform LAN network cabling. I also have expertise in Web Development using PHP, HTML, CSS, and Javascript and I can also use OOP and MVC concepts such as the Codeigneter Framework. I also enjoy working as a team and individually and I love learning new things.
